- Designed and created over 50 logos for dance schools across the UK.
- Created and implemented a production system/strategy that increased production by 100% (from 20-25 orders a day to 40-50). My system was more efficient at reducing bottlenecking of certain steps and simplified many processes so people with little training could step into many roles.
- Gained an understanding of designing whilst having to consider limitations imposed when using physical media.
- Archived professional proficiency in Adobe Illustrator, Adobe Photoshop, Hotfix Era.

Manager — Cinnabar Jun 2019 – Feb 2020

- Led teams of up to 7 people for 11-hour shifts making sure everyone maintained focus and morale.
- Exceeded sale targets each month by introducing incentives and rewards for employees that achieved and surpassed their personal target at weekends. As well as introducing new events / promotions for each weekday which resulted in an increased number of customers during the week.
